To whom it may concern

REFERENCE FOR ANDREA HULL

I had the pleasure of working with Andrea from July 2006 to February 2008. Andrea joined as a Junior Art Director and was an important cog in our creative team. Under the leadership of then Creative Director Mike Want Andrea produced many important and valuable creative gems. She also proved to be reliable, dedicated and committed to the process of creating work that was not only well designed but effective in the market place. Over her time at hippocampus Andrea continued to develop creatively.

Andrea left to pursue an opportunity of working at a globally aligned agency on a large account. I have no doubt that Andrea has continued to develop and grow in leaps and bounds and continues to produce work of the highest standard.

Yours sincerely

Guy Parton.
